SPECIAL STUDIO DEALS

Ladies and Gentlemen

We are running some special deals on Cranborne, Royer & Gainlab.

See below for what's on offer, and in stock now.

LIMITED TIME ONLY - Special Deals end Friday 14th August 2026 or until sold out.

Cranborne

Buy a Cranborne R-8 or ADAT Interface

Plus a Camden 500

And receive another Camden 500 FREE!

The 500-R8 and 500-ADAT are the new home for 8 of your favourite 500 series modules. The 500-R8 is also your new 28/30 channel USB audio interface, monitor controller, ADAT interface, and discrete analogue summing mixer.

500-ADAT + Camden 500

Receive another Camden 500 Free!

500-ADAT + (2x) Camden 500 List \$4,349

Special Package Price

\$3,700*

*valid until 14/8/26 or sold out

500-R8 + Camden 500

Receive another Camden 500 Free!

500-R8 + (2x) Camden 500 List \$4,902

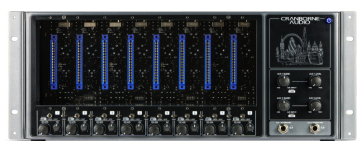

Special Package Price

\$4,253*

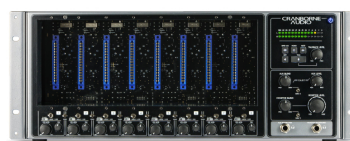

*valid until 14/8/26 or sold out

Vintage, Warm, and Coloured.
Camden 500 features "Mojo" - a custom analogue saturation circuit that transforms Camden 500 into the fattest, warmest, most colourful mic preamp in your arsenal. Designed to introduce harmonics and saturation effects that our favourite vintage gear produces, Mojo can be subtle, it can be exaggerated, but best of all it can be bypassed...

Camden 500 \$649

500-ADAT \$3,051

500-R8 \$3,604

Royer

Buy a R-10 and dBooster together

The R-10 is a passive, mono ribbon microphone designed for use in the studio and on live stages. Hand-built in our Burbank California factory, the R-10 is exceptionally rugged, handling SPLs of up to 160 dB @ 1 kHz (!), and its compact size and mounting system allow for flexible, unobtrusive positioning.

The dBooster is a phantom-powered ribbon and dynamic microphone signal booster and impedance buffer. It increases the level of passive low-output ribbon and dynamic microphones with a minimum of distortion or coloration.

R10 + dBooster List \$1,372

Special Package Price

\$1,098*

*valid until 14/8/26 or sold out

The R-121 ribbon is Royer's flagship microphone. It's everything a ribbon should be - warm, smooth, natural sounding. It's also tough as

nails, lightweight, can handle high SPL's and live stage use.

R-121 List \$2,587

R-121 Special \$2,069*

*valid until 14/8/26 or sold out

Ideal for both studio recording and live sound applications, the Royer R-12 active ribbon microphone delivers outstanding performance on electric and acoustic stringed instruments, vocals, brass, pianos and organs, as well as drums and percussion instruments at an easily affordable price point.

R-12 List \$1,535

R-12 Special \$1,228*

*valid until 14/8/26 or sold out
